

REMARKS

We have amended the specification and replaced the existing claims with new claims 36-41. The subject matter added to the specification, as well as the claims, enjoy support in the provisional application to which priority has been claimed. For example, reference is made to page 5 of the provisional application. We have not added any new matter.

In view of the present amendment, the rejections made in the final office action are moot. Accordingly, we submit that the pending claims are patentable over the applied art, and kindly request favorable reconsideration and allowance of this application.

The Commissioner is authorized to charge any fees due to the Glenn Patent Group Deposit Account No. 07-1445, Customer No. 22862.

Respectfully Submitted,
